INFORMATION

Seed list 2 of 2017

In this seed list we offer crosses made with Soft Touch as berry parent and pollen parent. Soft Touch is bred from Natal Yellow crossed with Naudes Peach. The flowers of Soft Touch have that near perfect form and the breeding success of this plant is well documented.

Partners:-

1. Hirao 689 - one of a few of my breeding hiraos.
2. Naudes Peach Breeding - this is a advanced form of Naudes Peach - good flower shape.
3. Angelica - peach crossed with Star Dust and a well-known plant.
4. Crown Prince - outstanding bronze and very consistent performer.
5. Light Orange - huge modern shape flowers. This plant is a Candle Light x Self.
6. Golden Fleece x Hirao - a yellow with soft green.
7. TKO - very good umbel.
8. Gunston x Hirao - very large umbel with good flower count.
9. Chiffon Daughter Breeding - a nice bi-colour.
10. Gunston - well known plant with good flower count and unique colour.
11. Bronze - a plant with good flower count and nice umbel.
